

CX/CBX Delta - The unique shape

# CX/CBX Delta - The unique shape

Innovation and creativity

# Innovation and creativity

CX/CBX-Delta is available in several standard colours

The divider system can make up to six compartments

With special joints CX/CBX-Deltas can make a circle

Innovation and creativity, that works in practice. Those are the main features behind the brand new Delta. We call it Delta because of its unique triangular shape.

The rounded front offers the same advertising space as a much bigger freezer - ensuring your products the maximum attention. And the compact measures makes it very versatile and useful where space is limited.

The CX/CBX-Delta can, of course, work as a single freezer. But one of its most important assets is that it can be combined with other CX-freezers/coolers. You can join four CX/CBX-Deltas into a circle, or form an island by combining CX-Delta with the rest of the "CX-family".

Like the rest of the CX-freezers/coolers, CX/CBX-Delta is available in different colours. And it can be made to fit almost any logo colours you may request - because we know that your profile matters.

ns, four  
can

The CX/CBX-Delta can  
be equipped with a  
digital thermometer

Internal light is also an  
option
