

Elcold's CVG provides maximum display area, as the glass is one-piece. No joints or overlaps. And the lift-up lid makes it easier for the customer to open the display freezer and take the goods they want.

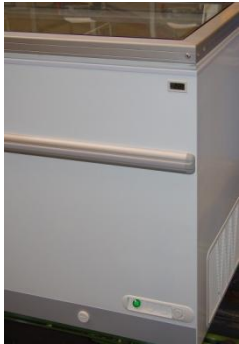

The lift-up lid also prevents the freezer from being used as a convenient surface which can quickly get covered with newspapers, magazines and the like.

The CVG is ideal for supermarkets, shops, kiosks, shopping centers, motorway cafés and gas stations, where it can be used for displaying ice cream, frozen foods, fish and bakery products.

CVG – Lift up glass lid

CVG Freezer

Bumperbars and kickplates available as optional extras, providing excellent protection for the cabinet. Also thermometer and control panel are available as optional extras

Strong baskets in different widths

Different divider systems are available for the CVG freezers

Perfect solution for Supermarkets

The CVG freezer is the perfect freezer solution for supermarkets. The large glass lid ensures optimal display area and the lid ensures a low energy consumption compared with open freezers:
